### 3. Certifications Regarding Lobbying

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non- appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93).

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

### 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any sub-awards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. (If needed, Standard Form-LLL, "Disclosure of Lobbying Activities," its instructions, and continuation sheet are included at the end of this application form.)
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

### 4. Certification Regarding Program Fraud Civil Remedies Act (PFCRA)

The undersigned (authorized official signing for the applicant organization) certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. The undersigned agrees that the applicant organization will comply with the Public Health Service terms and conditions of award if a grant is awarded as a result of this application.

### 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

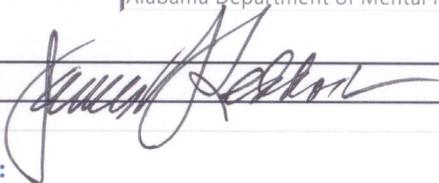

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

## IV: Narrative Plan

### W. State Behavioral Health Advisory Council

#### Narrative Question:

---

Each state is required to establish and maintain a state Behavioral Health Advisory Council (Council) for services for individuals with a mental disorder. While many states have established a similar Council for individuals with a substance use disorders, that is not required. SAMHSA encourages states to expand their required Council's comprehensive approach by designing and use the same Council to review issues and services for persons with, or at risk of, substance abuse and substance use disorders. In addition to the duties specified under the MHBG statute, a primary duty of this newly formed Council will be to advise, consult with, and make recommendations to SMHAs and SSAs regarding their activities. The Council must participate in the development of the MHBG state plan and is encouraged to participate in monitoring, reviewing, and evaluating the adequacy of services for individuals with substance abuse and mental disorders within the state. SAMHSA's expectation is that the State will provide adequate guidance to the Council to perform their review consistent with the expertise of the members on the Council. States are strongly encouraged to include American Indians and/or Alaska Natives in the Council; however, their inclusion does not suffice as tribal consultation. In the space below describe how the state's Council was actively involved in the plan. Provide supporting documentation regarding this involvement (e.g., meeting minutes, letters of support, etc.)

Additionally, please complete the following forms regarding the membership of your state's Council. The first form is a list of the Council members for the state and second form is a description of each member of the Council.

There are strict state Council membership guidelines. States must demonstrate (1) that the ratio of parents of children with SED to other Council members is sufficient to provide adequate representation of that constituency in deliberations on the Council and (2) that no less than 50 percent of the members of the Council are individuals who are not state employees or providers of mental health services. States must consider the following questions:

- What planning mechanism does the state use to plan and implement substance abuse services?
- How do these efforts coordinate with the SMHA and its advisory body for substance abuse prevention and treatment services?
- Was the Council actively involved in developing the State BG Plan? If so, please describe how it was involved.
- Has the Council successfully integrated substance abuse prevention and treatment or co-occurring disorder issues, concerns, and activities into the work of the Council?
- Is the membership representative of the service area population (e.g., ethnic, cultural, linguistic, rural, suburban, urban, older adults, families of young children)?
- Please describe the duties and responsibilities of the Council, including how it gathers meaningful input from people in recovery, families and other important stakeholders.

#### Footnotes:

### **Behavioral Health Advisory Council.**

As the Division moves forward with plans to functionally integrate the substance abuse services division and the mental illness division, reorganization of ADMH's current Mental Health Advisory Council to incorporate representatives of the substance abuse community will be considered. Until such time, however, substance abuse services will continue to be planned and implemented as follows:

ADMH has established a formal committee structure through which service providers, service recipients, families, and advocates actively participate in the Department's planning and budgeting processes. Created in 1994, a Management Steering Committee provides for the development and oversight of a planning process for the provision of mental illness, developmental disabilities, and substance abuse services. This committee, in accordance with guidelines established by the ADMH Commissioner, is charged with the following responsibilities:

1. Develop strategic direction for the provision of developmental disabilities, mental illness, and substance abuse services;
2. Develop the Departmental legislative budget requests consistent with established priorities;
3. Develop budget allocations and major reallocations (e.g., proration, revenue changes, etc.) which impact the plan;
4. Review quarterly the progress on plan implementation;
5. Establish a conflict-resolution procedure, including criteria and guidelines under which issues shall be determined to be subject to such procedure;

The Management Steering Committee also has responsibility for establishing Coordinating Subcommittees to facilitate the development of plans for intellectual disabilities, mental illness, and substance abuse services, respectively. The Coordinating Subcommittees, chaired by the Associate Commissioner for each departmental division, function to integrate local and regional planning efforts with statewide planning, consistent with the strategic directions established by the Management Steering Committee. Plans and recommendations developed by the Coordinating Subcommittees are sent to the Management Steering Committee for review and appropriate action. Actions and recommendations of the Management Steering Committee are advisory to the Commissioner and do not circumvent or diminish ADMH's statutory authority.
