

Baldwin County Community Alliance (BCCA) spearheaded by AltaPointe Health Systems, Inc., Prevention Services, held its annual Baldwin Star Search at the Daphne Civic Center on Friday, April 24. The event was a huge success! Youth from various high schools in Baldwin County displayed confidence, amazing talent and artistic professionalism as they graced the stage to perform. Violin, guitar, solo and group acts, keyboard, classical dance, urban hip hop, and rap were just some of the 18 talent acts showcased. Parent and adult participation was ever present throughout the evening. The event was very well organized and volunteers were delighted to assist guests. As I spoke with some members of the BCCA, they openly expressed their excitement about their involvement and participation, saying they are "proud to be a part of such a positive movement with our youth." It was a cultural experience you would not want to miss... I am already looking forward to next year's event. KUDOS, BCCA!
